Letter from Nelson

Thanks!!!

“Lead, follow or get out of the way!” I don’t remember the first time I heard this saying, but I think it was my dad who said it. I’m sure I heard those words from my basic training drill sergeant, Sgt. Belt. Sgt. Belt was a tall, skinny guy with a voice that would go right thru you. He was a scary man, full of passion for his job. His mission was to turn kids like me into leaders. I think about him often as I work our business. I think about his contribution to my development as a soldier and future leader, and I know he was someone who influences the decisions I make today. I’m sure he changed my life and many other people’s lives during his time in the Army. He is a true American Hero.

I have a ton of respect for Sgt. Belt. He taught me many things, but the most important was about leadership. There are many books on leadership, but none tell you the whole story. Sgt. Belt showed me not only how to become a leader, but how to act once I became one. To him there was no question if I would become a leader. His job was to make me one. It was a matter on how long the road was going to be.

What I learned from him was that being up front does not mean you make all the calls, or that you get to tell everyone what to do. That is not leadership. Being up front is when you become a servant to everyone behind you. Your main job is to provide, encourage, train and counsel just like he did for me.

Little did I know that he was teaching me a life lesson that I would find useful raising a family and running a business.

I’m here not because of my mad skills, but because of the people around me. Starting with my wife Lara, she is the most genuine person I know. She never stops encouraging me to be better. Jim Brennan (Customer Care Manager) has shown me to be humble and patient. Heather Marsden, (Administrative Director) has taught me how to be direct and precise.

Joanne (Accounting) has taught me to be accurate and to always question the numbers. Eddie Sharp (General Manager) has taught me how to be a good friend. David Beede (Production Manager) Has taught me how to stay on schedule, set a goal and stay with it until it’s done. Our Interior Designers have set a new design standard for our industry to consider. They have taught me to have an open mind and listen. Amber (Front Desk Receptionist) has taught me to always smile and be polite. Scott Puch (Service Manager) and the service team, have taught me to stay calm and to deal with things as they come up with decisiveness and intent. Fletcher Christian (Inventory and Paint Manager) along with the paint crew, are always looking for the next best thing and are always growing. They have taught me to think outside of the box. Our sales team have shown me to follow up and stay connected.

The people I learn the most from are you, our customers. We have the best customers in the world, full of knowledge and advice. You are all mentors to this little kid with a big dream.

So, my life’s accomplishments have not been possible without our team, my family and our customers. Thank you, Sgt. Belt for showing me how to be a leader.

This season, I’m especially thankful to all the people in my life that have made me better. I consider myself blessed to be here, surrounded by all of you.

For that I say
Thanks!!!

about us!

I have known Nelson Figueroa for a number of years, but never felt I could afford a Prevost Coach, so our friendship was based solely on a good relationship as we continued to bump into each other at motor coaching events. When my wife, Marilyn, and I finally decided to make the leap into a Prevost, Millennium Coaches was the place we wanted to go. After comparing to other converters, it was clear that no one could come close to what Nelson and his Millennium family could offer:

- An exceptional family atmosphere throughout the Millennium organization. That atmosphere has spread to all of the customers as well. You can just feel the positive vibes whenever you visit the factory in Sanford.
- Superb customer service that is unsurpassed. I had heard comments about this over the years, but experiencing it has been a real joy! They even promptly take care of issues for the Millennium customers at our Mountain Falls Resort in North Carolina.
- Nelson and Lara both take a hands-on approach with everything at Millennium, ensuring that no need is unmet.
- The enthusiasm throughout the factory facility is infectious. Everyone is friendly and helpful, and they immediately stop what they are doing to offer any assistance needed. There are no boundaries as each person tries to help customers get what they want.
- Finally but most importantly is the highest quality final product that is produced by the Millennium Team. Everything else they accomplish is for naught if the coaches are not exceptional, and every single member of the Millennium Family is enthusiastically committed to make sure that quality is unsurpassed.

As I am sure you can sense, Marilyn and I are huge believers in the Millennium culture and we feel fortunate that we will be able to participate in the family's success in the future!
