

2008 Marathon H3-45 #1116

66,000 Miles (2) Owner Coach Always Garaged

Valid Triple Slides PRE Emission Detroit motor

Seldom do you acquire a coach of this caliber and ownership. Documented two owner coach (2nd owner we know and sold his brother and wife #1185 several years back). During his ownership, a lot of interior and exterior updates were done, which we'll outline. But the coach was also due for maintenance needs, and in April of 2026, we addressed the following:

NEW Michelin 315's and 365's w/high speed balancing....
6 NEW LifeLine 4D blade post batteries...Full undercarriage inspection and service, with new Sway Bar bushings, power assist hydraulic steering cylinder, a full shock package at all locations, Dash AC needs addressed and recharged, and air systems checked. Air bags, rotors, pads were all done in 2025 along with new turbo air cooler and various other needs.

NEW interior and exterior updates we have just completed:
...Interior LED ceiling fixtures adding additional for enhanced lighting in Salon-Galley-Hallway-Master
...Full undercarriage LED IP68 lighting Full engine hatch LED IP68 lighting Full Louver LED IP68 lighting Full length

awning GLO LED lighting package Full Bay LED IP68 lighting w/back lighting in sewer, inverter, and genset for servicing needs Replacement and additional side scene lighting driver and pass sides (5 total) Replacement of ALL marker lights to clear lens w/amber/red LEDs FULL interior replacement of ALL accent lighting...cabinets-displays-dinette-under beds to LED GLO in soft white which gives a huge change to the full interior of the coach.

Other updating and features that need attention:

Asko washer dryer combo Paykel Fischer dishwasher
Wolf Induction 3 burner range GE Advantium Microwave
Dual Salon leather Recliners Leather sofa w/storage
(4) Samsung Smart LED TVs w/Marathon I pad upgrade
StarLink installed WineGard HD Sat KVH InMotion Sat
WineGard 360 Air Antenna 2 Direct TV Receivers
Upgrade wood flooring Salon and Master Granite Galley
(4) Mach 8 roof ACs Girard Awnings driver/pass side
Bays 1 and 2 are FULL pass thru's with sliding trays
HOWEVER Bay 2 has a floor access from the Salon into the bay which has multiple power sources with its own AC/heat unit. Great for sleeping small ones in their own little world

This triple slide coach offers a huge master with FOUR full closets, multiple drawer and cabinet storage, full bench sitting area AND A NEW CUSTOM TemPur-Pedic MATTRESS that have been formed to true KING SIZE spec's 75 inches wide and 78 inches in length. Lets remember this is a pre-emission Series 60 motor and thus a FULL SIZE rear closet. This is our 6th Triple slide coach we have offered with dual slide in the master. We personally enjoy this feature for multiple reason, storage space and size. This allow full gull wing door access to all FIVE pass side bays

The exterior colors and paint scheme make this coach stand out and the interior colors are neutral, not being dark nor to white. The wood floor choice was perfect and light color of the leather in the salon chair and sofa, just give a soft tone touch throughout.

But wait, we have not mention ALL of the updating done to the driver / pass seating area.

360 degree wireless camera system and monitor

TMPS to monitor tire pressures while driving

Garmin 890 GPS system install to drives left

Panasonic 10 ½ screen AM/FM/Car Play/Back up Camera

Passenger Garmin GPS

Interior Sewer system for Black and Gray water dumping

Hey, as we mentioned at the very beginning seldom do you find a coach of this caliber, with these fuel miles, and ALL of these features and updates.....simply put, you have just about all of the features of a new Prevost Marathon at a fraction of the cost of a new coach. It is not uncommon for us to invest \$40-\$70K in a FULL update like this coach and yes, our pricing is more expensive than other similar years, but our presentations are always the “best that we can offer” and we have a lot of clients that validate our efforts.
